Experience

UX designer, CEA

Toulouse, France — 2020 – present

- Block-release training in an open innovation center integrated into the CEA.
- 6 weeks in company / 3 weeks in school rate.
- Worked as a part of workgroups composed of engineers, project managers and designers.
- Managed the design of several demonstrators that were added to the regional showroom.
- Helped engineers to formulate their messages and designed solutions for them to present their innovative technology projects.

Graphic and web design internship, Pickup Production

Nantes, France — Sept. – Oct. 2019

- Worked on Hip Opsession Reboot, an international hip hop festival that took place in Nantes.
- Designed all the on-site signage conforming with the graphic charter.
- Worked in an association environment with different teams preparing an 8,000 visitors event.
- Performed usability audits on two of Pickup's websites.

End of studies project

L'école de design Nantes Atlantique —
2021 – 2022

- Autonomously managed a design project from context analysis and problem formulation to final design proposition.
- Project problem : "How can the school environment and climate help open up discussion and prevent high school dropout?"
- Interviewed educators, employees of the Ministry of National Education, high school pupils.
- Designed a digital service to help students open up about their school and personal issues to their teachers without fearing to be judged.

Education

Master's degree, Media design

L'école de design Nantes Atlantique —
2020 – 2022

- Master's degree focused on storytelling in the service of entertainment, information and communication in order to propose projects around mediation and experience.
- Block-release training program.
- End of studies project to help prevent school dropout in highschools.
- Wrote a thesis on school dropout.
- Design a community mobile application to help protect biodiversity.

Bachelor's degree, Interaction design

L'école de design Nantes Atlantique —
